Balance against England in four years £138.882.645 We present this table for the edification of those hiends of protection who are ever and anon declaiming against the danger to this country of what they deem an adverse balance of its trade. It is asserted that one of the worst results of the tree trade policy is, to encourdrains the country of its money capital, thereby creating high rates of interest and generally embarrassing the commerce of the nation. We have repeatedly shown that in the first place the adoption of tree trade has not ordinarily brought about that result, and in the next, that an excess of imports over exports does not necessarily produce enlarged shipments of specie, but that in many years of our national commerce the specie exports have been lightest when we have had a large "adverse balance" of trade. Were this theory correct it must long ago have evinced its truth in a complete abstraction of specie from England; for it is habitnal with that country to have an excess of imports over exports of from 150 to 200 million of dollars per annum. For the four years enumerated in the table the balance of trade against England amounts to £138,882,645! Now it is perfectly clear that if, as protectionists assert, this amount had to be paid out in hard specie, the circulating medium of the country would have been completely exhausted, and the people left without any cash capital on which to transact business. The mere statement of such an absurdity is its relutation. So far from such having been the result, the specie of the country has in the meantime been steadily accumula ting, and money has been for a long period at two n 3 per cent. The fact is that, instead of this balance representing so much "loss of specie" to that country, it rather represents the actual gain made upon its transactions. It is amazing that commercial men, accustomed to the constant balancing of trading accounts, should be led into such absurd blunders on matters so simple. When a large class of traders, holding principles so contradictory of the experience of every day trade, combinedly aspire to the control of the national finances, as is the case at present with the protectionists of this country, it is time they were given to understand The question whether protection or free trade shall direct the commercial policy of the United States pos-

But what is the matter with that grand old lion? He s in pain; surely he is in pain. His breathing is short, ad is drawn with effort; his nostrils are spread wide ips drawn back, and that great shaggy chest heaves un asily. He is suffering from bronchitis, for he evidently cannot bear the keen air of the north. He is couchant out now he lifts his head high, and looks round and round the show in the hundred faces of that unfeeling crowd, as if searching for sympathy.

But no; they cannot read his eye of mute appeal; he is nothing to them but a great tawny lion, with shaggy mane and tufted tail. Suddenly he rears him elf up to his full stature, throws back his grand head, such as Caesar's when he fell.

BRYAN'S PULMONIC WAFERS mid-winter-black in profoundest contrast with the moonlight, lying in such a depth of shadow as only that eighboring brightness could expose, lies far below us he pavement of this narrow lofty street. What is that casured cadence sounding upward through this gulph air and darkness-that gleam of moving lights, wild and variable, blazing through the gloom—that tramp of otsteps? Look down where they pass below, the few assengers scarcely pausing to look after them, they hemselves pausing for nothing, marching to the measure their chant, not slow, though solemn-no voice of inividual grief, but a calm impersonal lamentation, a fly melancholy utterance upon the common fate of hunanity. White figures in the dress of a fraternity, with wo or three wild torches throwing light upon their way, and upon that dark weight they carry shoulder igh and motionless-answering to each other with chant and response of deep voices, carrying their dead. Nay, ot their dead, it has ceased to belong to any one, that dent burden. Love has not a tone in that dirge-grief s not there-it is the voice of the church, solemnly comenting upon the universal fate-calling the world to itness that all must die-and cold, solitary, loveless, e forlorn dead in the midst of them goes to be buried at of sight. The accuracy of the annecdote may be vouched for. In the island of Ceylon there is to be found a very age such an excess of imports over exports as seriously cunning and sensible crow, somewhat smaller than our own native one, having a glossy back, and altogether rather an engaging, pretty bird. It alighted and evidently waited an opportunity for seizing the lat- copy the following from the Saratogian : ter. REVIEW OF THE WILMINGTON MARKET, FOR THE WEEK ENDING JUNE 6TH, 1860.

umber, & M...... 0 00@6 00 7 00 @ 8 00

TURPENTINE .- After closing our review on Wednesday and sales were made at \$2 80 for virgin, \$2 60 for yellow dip, and \$1 60 for hard, per 280 lbs. There is plenty of water in both branches of the river, still we have to report very little produce coming in from above tide-way, and the larger portion of the week's receipts have been by railroad and small coasting vessels By reference to our table of sales it will be seen that virgin ranges from \$2 80 to \$3 00 -the latter price being paid mostly for parcels by vessels. There is a fair enquiry from shippers and distillers, and the of the most elegant description, and most substantial make. There is a fair enquiry from shippers and distillers, and the market closes steady at quotations given below. The

week's transactions foot up only 2,477 bbis, viz: | Rest | Color | State | State

Rosin-During the week just ended the market has ruled quiet, and we have no change of importance to report in either grade. There is only a light stock in receivers hands, still buyers show scarcely any disposition to operate at former quotations, and the market closes inactive. Pale has been almost entirely neglected, and the sales comprise only a few parcels (in all about 200 bbls.) at prices ranging from \$2 50 to \$3 50 per bbl. of 280 lbs., as in quality, and half price for Opaque;—there is very little of bright quality on market. For Nos. 1 and 2 scarcely any demand has existed, and the market rules about the same as reported in our last. We quote only a few small lots as having sold at \$1 373 a \$1 75 per bbl. for the former, and \$1 20 per 310 lbs. for latter quality. For Common the market has ruled quiet under the advices from abroad, and there is only a limited demand from buyers. We quote sales for the week as follows: Wednesday, 800 bbls. at \$1 15; Friday, 500 do. at \$1 15, 1500 do. Tuesday, 1,000 do. at \$1 124; and Wednesday, 200 do. at

TAR-The receipts since our last have been exceedingly light, and, with a fair enquiry for shipment, the market has ruled firm. We quote sales for the week of only 396 bbls, at BEEF CATTLE AND SHEEP-The market continues to be

same price-all per bbl. of 310 lbs.-being a decline of 24

poorly supplied with beeves, there being scarcely sufficient in butchers' hands to meet present wants, and prices rule high. One small lot of grass fatted was brought in a few days since, and sold at 71-2 cents per lb.;—there is an active demand, and a few droves would find ready sale at fair prices. We quote as extremes 7 to 8 cents, according to quality. SHEEP have also been brought in slowly, and there is only a small supply on market. A fair demand exists, and \$1 50 to \$2 25 each could readily be obtained. BARRELS—For empty Spirits Turpentine Barrels the mar-ket continues to rule steady, and no difficulty is experienced in selling a good article of second hand or new ones. The

consequence no transactions have been reported for the rant them, in point of strength and richness of flavor, week. There is some demand from buyers, and fine grades BEYOND ALL COMPARISON,

report in prices. There is merely a retail demand, and we refer to our table for store quotations, according to quantity and quality. The cargo of 1800 bags Rio, noted in our last as just arrived per Brig H. A. Campbell, was sold at auction on Tuesday at prices ranging from 12 15-16 to 13 15-16 cents

per lb., 4 months-an averge of \$13 27 per 100 lbs. CORN MEAL .- Only a few small lots have arrived from the country for a week or two past, and the stock on market is confined to parcels in the granaries. We quote sales from store at 95 cents a \$1 per bushel. DRIED FRUIT .- At present there appears to be little or no

enquiry from buyers, and in consequence the market rules | quite dull. On Friday last a lot of 3,000 lbs. Apples was sold at 24 cents per lb. for peeled. FGGs-Are brought to market slowly, and meet with quick sale from carts at 20 a 22 cents per dozen. FEATHERS -The market is poorly supplied, and we notice

fair demand. Sell from store at prices ranging from 45 to 55 cents per lb., according to quality. FLOUR-In the market for State brands we have to report decidedly dull feeling throughout the week just ended. Under the advices received from the interior and other markets buyers have shown no disposition to operate, and in consequence no transactions have taken place except in the retail way. The receipts since our last have been rather light, both by river and railroad, still we notice a moderate supply in first hands. At the time of making up our report the market is quiet, and closes with a downward tendency in prices. We quote nominally at \$7 for superfine and \$7 25

per bbl. for family, at which it is now generally held. GUANO-There is nothing new to report in either descrip tion. The market is moderately supplied, and rules steady at the following quotations, at which sales have taken place from store, in lots of one ton and upwards: No. 1 Peruvian \$60; Reese's Manipulated, \$52; American \$40; Sombrero \$35; Superphosphate of Lime \$50; and Land Plaster \$10 per ton of 2,000 lbs.

GRAIN-The Corn market has ruled exceedingly dull during the week just ended and prices have declined 2 a 23 cents on lowest quotations of Wednesday last. The arrivals for the week have been heavy, and the market is overstocked, and at the time of making up our report there is scarcely any demand from dealers. The total receipts foot up 20, 576 bushels, 14.270 from Hyde and Perquimans counties, and 6,306 from Baltimore :- of the latter 1,000 bush. had been sold to arrive at \$24 cents, and the balance stored. Of the former we notice sales of 2200 bush, on private terms, 1900 do. at 78 cents, 1400 do. at 771 cents, 1400 do. at 73 cents, 500 do. at 721 cents, and 1500 do. inferior (at auction) at prices ranging from 44 to 70 cents per bushel; - the balance is ussold, and has gone into store. The market closing inactive at 72 a 73 cents for Hyde county. OATS-There is a fair supply on market, and little or no demand from dealers. A lot of 1300 bush, was received from Portland in the early part of the week, and changed hands on private terms. We quote nominally at 50 to 55 cents per bushel, as in quality.---Peas-No receipts worthy of note since our last review, consequently we have no sales to report. There is a moderate supply of Cow on market, still we notice a fair demand from dealers, and a prime article sells readily at 85 to 90 cents per bushel -----RICE-The market is only moderately supplied with clean, and rules steady, with a fair demand from the trade. A lot of 50 casks was received from Charleston in the early part of the week, which has gone into store. Selling at 4 to 41 cents per lb., according to qual-

HAY .- For some weeks past the receipts have been small, and in consequence the supply in dealers hands has become considerably reduced. An active demand exists, and prices have materially advanced. We notice the arrival since our last of 376 bales Eastern, of which 221 do. sold on private terms, and 155 do. at \$1 53 per 100 lbs. About 427 bales Northern have also arrived, which is selling from wharf in lots at \$1 40 to \$1 50, as in quantity.

LIME.—There is merely a retail business doing in this article, and the stock is fully adequate "or present wants .-We continue to quote common lump at 1 to \$1 10 per cask. MOLASSES .- We have no change to report in the market for Cuba. There is only a light demand at present, and we | bbls. and 5 boxes mdze., 10 bbls. and 1 tierce old copper. notice a full stock in first bands.
